PROFESSIONAL SUMMARY

Principal-level product leader with 15+ years across enterprise SaaS, subscription commerce, monetization, billing platforms and, most recently, US benefits technology. Led 0-to-1 development of VMware's Subscription Commerce Cloud (enabling $10M+ ARR) and owned the roadmap for 50+ platform services. At TriNet, drive platform modernization across benefits pricing (Rate Engine), carrier integrations and consolidation, and AI-driven service automation. Translate annual leadership priorities into quarterly roadmaps balancing urgency and engineering capacity (90% on-time releases, 15% higher CSAT).

CORE COMPETENCIES

- **Product Strategy & Leadership:** Product strategy and roadmapping, roadmap planning and prioritization (annual planning, business-value and urgency-based, capacity-based), product discovery, 0-to-1 product development, go-to-market, cross-functional leadership, stakeholder management, mentoring.
- **Monetization & Pricing:** SaaS monetization, consumption and usage-based pricing, pricing and packaging, offer management, subscription lifecycle management, perpetual-to-SaaS migration, renewals optimization, up-sell/cross-sell and expansion revenue, revenue recognition.
- **Lead-to-Cash & Platforms:** Quote-to-cash and order-to-cash, order management, billing, entitlements, licensing and provisioning, payment methods, install base and service contracts, API product management, ERP modernization.
- **Benefits & HR Tech:** US benefits administration (PEO), premium rating and rate engines, benefits billing, carrier onboarding, consolidation and integrations, EDI 834 enrollment and member data reconciliation, ACA reporting.
- **AI & Automation:** Generative AI product delivery, LLM integration, AI assistants for Sales (Deal Desk) and Customer Service Operations, hybrid AI plus RPA automation, workflow automation.

PROFESSIONAL EXPERIENCE

Lead Product Manager | TriNet India, Hyderabad *May 2024 – Present*

- Delivered a Generative AI assistant in Salesforce Service Cloud for Customer Service Operations, extending existing RPA bots: **90%** faster case resolution, **30%** lower operating cost.
- Modernized Rate Engine premium calculation for risk-sharing and guaranteed-cost carriers using risk modifiers and national/regional factors (replacing legacy band codes), improving pricing accuracy to **95%**.
- Designed tiered and bundled benefit plans with pricing and discount rules in Salesforce CPQ, improving Lead-to-Cash execution efficiency by **40%**.
- Driving phased consolidation of ~20 insurance carriers into a single provider to reduce EDI/SFTP operating and maintenance cost.
- Onboarded new and existing carriers (~20) on HIPAA 834 enrollment files over SFTP with member ID feeds (**95%** sync accuracy); redesigned Salesforce-to-TriNet onboarding, cutting manual sync errors **80%**.
- Replaced legacy PeopleSoft screens with React.js UI/UX in MFT (Managed File Transfer) for Benefits Support and Billing teams, cutting process time **50%**; migrated carrier feeds on multi-year PeopleSoft decommission roadmap.
- Enabled worksite employee (WSE) single sign-on (SSO) for ACA 1095-C/1094-C forms from a third-party provider, eliminating yearly postage costs and delivery delays; set up K1/non-K1 group accounts for disability carriers.

Lead Product Manager / Lead Business Systems Analyst | VMware Software India, Hyderabad *Aug 2011 – Dec 2023*

- Launched VMware's global Subscription Commerce Cloud (0-to-1): self-service ordering and perpetual-to-SaaS migration for enterprises, partners and MSPs; unlocked **$10M+** ARR (CIO Award FY23).
- Owned roadmap and requirements for 50+ platform services (APIs): offers and pricing, subscription creation and provisioning, support, payment methods, billing, usage analytics, renewals; efficiency +**35%**.
- Increased renewal revenue **70%** through Renewals Optimization, creating proactive up-sell and cross-sell (expansion revenue) renewal quotes.
- Automated Support and Subscription (SnS) credit calculation and install base termination in the Subscription Upgrade (SUP) flow for brownfield customers (renewal opportunity, quote, order).

- Created the Deal Desk AI assistant with a real-time Quote Lines Validator syncing quotes to Oracle Install Base (status, quantity, SnS#, end dates), automating quote-to-approval and cutting cycle time **40%**.
- Streamlined quote-to-cash workflows across Salesforce CPQ, Oracle EBS and SAP ERP (**50%** less operational effort) and spearheaded a centralized email Notification Framework, cutting operational costs **25%**.
- Established a unified Agile delivery framework (**30%** better roadmap visibility); mentored junior PMs and BAs on PRD and epic standards.

Principal Consultant | Hitachi Consulting, Hyderabad *Sep 2009 – Aug 2011*

- Led Oracle SCM and CRM implementations, improving order management and service contract renewals by **60%**.
- Introduced order-to-cash automation, boosting operational efficiency.

EARLY CAREER

- Senior / Functional Consultant: Fujitsu Consulting America, Genpact, Oracle India, Duncan Infotech.
- Software Developer: 4+ years of application development and database design, the technical foundation for platform and integration product work.

SKILLS

- **Salesforce:** Sales Cloud, Service Cloud, Configure Price Quote (CPQ), Revenue Cloud/Billing, Commerce Cloud, Order Management (OMS), Experience Cloud, Salesforce Flow.
- **ERP & Enterprise Systems:** Oracle EBS (Order Management, Advanced Pricing, Service Contracts, Install Base, AR/AP), SAP BRIM/SOM, PeopleSoft (decommission and migration), ServiceNow.
- **Integration & Data:** HIPAA 834 / Electronic Data Interchange (EDI), SFTP, Managed File Transfer (MFT), API requirements, system architecture mapping, data synchronization analysis, SQL.
- **AI & Automation Tools:** Claude, Gemini, Microsoft Copilot, Atlassian Rovo, Robotic Process Automation (RPA), Voiceflow, Activepieces.
- **Delivery & Design:** Agile/Scrum, PRD and epic authoring, backlog refinement, Jira, Confluence, Figma (UI/UX wireframing).
- **Domain:** SaaS subscription commerce, enterprise infrastructure software (VMware), US benefits administration, Professional Employer Organization (PEO), Affordable Care Act (ACA) reporting.

EDUCATION

- M.Tech, Software Systems: BITS Pilani (Work-Integrated Learning Program)
- Bachelor of Engineering: Chaitanya Bharathi Institute of Technology, Hyderabad
